**About LiveText**

LiveText is an online assessment platform the National College of Education uses to collect data on student learning. The College of Education uses empirical data collected through LiveText as a means for tracking student performance and progress toward learning outcomes. Empirical evidence of learning obtained through LiveText also plays a critical role in maintaining accreditation status.

Assess Submissions

Current assessments are listed on the Dashboard. The colored progress bar next to each assessment indicates the progress of the assessment. The red portion signifies the number of students who have not yet submitted their work. The yellow portion indicates students who have submitted their work and are awaiting assessment by an instructor. And the green portion indicates the number of student assessments that have been submitted and assessed.

2. Select the appropriate term from the Term dropdown menu.

3. Click the Assess link in the row of the assessment you wish to assess.

4. In the center (yellow) column, click the name of the student you wish to assess.

7. Enter the student’s grade as a percentage (out of 100) in the Grade (0-100) textbox. This does not have to be the same as the rubric grade.

8. (Optional) Enter your general feedback for the assessment in the Comment textbox.

9. (Optional) Attach files you wish the student to review.
10. Click on **Submit Assessment**.
