

About 80% of NCE graduates tracked by the state proceed to jobs in Illinois public schools

(Note that this does not mean that the remaining ~20% are unemployed, only that they are not employed at public schools tracked by the state.)

Of graduates employed by Illinois public schools,
NCE Places a high proportion of its graduates in high-needs schools

Percent of Graduates Employed in Illinois Placed into High-Needs Schools

2016 Completers Employment by Prep Program | 2017 Completers Employment by Prep Program | 2018 Completers Employment by Prep Program

NCE holds par with the state for persistence of its graduates employed in Illinois.

This is particularly significant given that a majority of graduates take jobs in high-needs schools, where attrition is often higher.
