2 - Provide information concerning the edTPA: Describe the program changes that have been implemented using edTPA data. (5000 character max)

N/A

3 - Describe how program faculty review assessment data throughout the program (content knowledge, pedagogical knowledge [specifically, instructional planning and candidate impact on student growth], clinical experience (this may include fieldwork and student teaching and dispositions). (5000 character max)

NCE requires all of its programs to annually report, review, and reflect upon the data collected and aggregated from program signature assessments which include assessment of: content knowledge, pedagogical content knowledge, instructional planning, candidate impact on student growth, clinical experience, candidate dispositions, diversity proficiencies, and technology proficiencies.

Review of the data occurs throughout the academic year, at the end of each quarter and cumulatively at the conclusion of the academic year as program faculty view and analyze the aggregated data from signature assessments completed by their candidates. Comparisons are made from reviewing present and past data, especially examining areas where the data indicates that candidates are not fully meeting outcomes as expected at the mastery level.

Additionally, data collected at transition points in the program are reviewed by faculty. Transition points refer to the benchmark experiences in the program where signature assessments are implemented (beginning of program, middle of program and end of program). Reviewing assessment data at these transition points allows program faculty the opportunity to determine candidate outcomes related to performance and ongoing development toward the overarching goal of becoming an effective professional and their impact on PK-12 learning. Discussion and goal setting take place for setting up a plan for improving curriculum, instructional strategies, assignments, assessments and rubrics as well as program development as a means for assisting candidates in their continued development and growth as educators.

In the autumn of the academic year, all NCE programs submit their annual program assessment reports to the NCE Assessment Committee which is comprised of faculty from across the college. This committee reviews program assessment reports using a rubric that is designed to provide feedback to faculty in each program. Program faculty review the feedback and use it to assist in further refinement of signature assessments and data analysis.

4 - Provide an update of program changes from the previous academic year: which program changes, if any, were made/approved during the reporting period. (5000 character max)
